

Ecclesiastical Latin

EL-II.11: Commands, Prohibitions, Wishes, and Fearing

Map speaker, addressee, person, negation, time, and reality across imperatives, jussives, prohibitions, wishes, and fear clauses

Stage	Stage II — Core Grammar
Prerequisite	EL-II.10 mastery: distinguish factual, characteristic, and related relative uses
Next	EL-II.12, Gerund, Gerundive, Supine, and Passive Periphrastic

Read *EL-GUIDE: Start Here* before using this packet. Course method, pacing, source conventions, and answer protocol are stated there; this module begins with its lesson and assumes previously taught terms.

Part I

Lesson

CHAPTER 1

Commands, prohibitions, wishes, and fearing

On completing this unit, you can:

- form present and future imperatives, including common irregulars;
- use jussive and hortatory subjunctives for first and third persons;
- distinguish the ordinary prohibition patterns;
- read fulfilled, possible, and unfulfilled wishes and the reversed negatives of fear.

1.1 Direct volition

An **imperative** directly issues a command, most commonly to a second person. A **jussive subjunctive** expresses a third-person command; a **hortatory subjunctive** urges first-person plural action (“let us”). A **prohibition** is a negative command. An **optative subjunctive** expresses a wish, while a **fear clause** names the event whose occurrence or nonoccurrence is feared. These labels identify distinct uses even when English renders several with “may” or “let.”

Imperatives and jussives

	<i>amo</i>	<i>moneo</i>	<i>rego</i>	<i>capio</i>	<i>audio</i>
2 sg. active	ama	mone	rege	cape	audi
2 pl. active	amate	monete	regite	capite	audite
2 sg. passive	amare	monere	regere	capere	audire
2 pl. passive	amamini	monemini	regimini	capimini	audimini

Four frequent singular active forms drop *-e*: *dic, duc, fac, fer*; plurals are *dicite, ducite, facite, ferte*. Present subjunctive supplies first- and third-person commands: *oremus*, “let us pray” (hortatory); *veniat*, “let him come” (jussive). Future imperatives, common in law and rubrics, use *-to/-tote/-nto*; the essential forms of *sum* are *esto, estote, sunt*.

Prohibition, wish, and fear

A direct second-person prohibition normally uses *noli/nolite* + infinitive: *nolite timere*. *Ne* + perfect subjunctive can give a sharp prohibition (*ne timueris*); present subjunctive with *ne* is common in prayers and third persons (*ne respicias*).

A possible or fulfilled wish uses present/perfect subjunctive, often with *utinam*; an unfulfilled present wish uses imperfect, and an unfulfilled past wish pluperfect: *utinam adsit*; *utinam adesset*; *utinam adfuisset*. Liturgical *fiat, sit, requiescat* is frequently optative or jussive without *utinam*.

After a verb of fearing, *ne* introduces what one fears will happen; *ut* or *ne non* introduces what one fears will not happen. Translate the fear, not the marker word mechanically: *timeo ne veniat*, “I fear that he may come”; *timeo ut veniat*, “I fear that he may not come.”

1.2 Reading the forms in context

Worked example: institution commands in the Canon

Worked passage ID: W.II.44; exact source and collation state are recorded in the passage inventory.

Accipite et manducate ex hoc omnes: hoc est enim Corpus meum.

Analysis. *Accipite* and *manducate* are second-person plural present active imperatives. *Omnes* is a substantival nominative vocative-like address; the prepositional phrase *ex hoc* refers to what is received.

Translation. “All of you, take and eat of this, for this is my Body.”

Worked example: prayerful prohibition before the Peace

Worked passage ID: W.II.45; exact source and collation state are recorded in the passage inventory.

Ne respicias peccata mea, sed fidem Ecclesiae tuae; eamque secundum voluntatem tuam pacificare et coadunare digneris.

Analysis. Present subjunctives *respicias* and *digneris* express negative and positive petitions. *Ne* negates the first; *sed* supplies the contrast. Deponent *digneris* governs infinitives *pacificare et coadunare*.

Translation. “Look not upon my sins, but upon the faith of your Church; and be pleased to give her peace and unity according to your will.”

Worked example: jussive prayer in the Pater noster

Worked passage ID: W.II.46; exact source and collation state are recorded in the passage inventory.

Fiat voluntas tua, sicut in caelo et in terra.

Analysis. *Fiat* is third-person singular present subjunctive of *fi*, used independently as a jussive/optative. Nominative *voluntas tua* is its subject.

Translation. “May your will be done, as in heaven and on earth.”

Worked example: unfulfilled wish (Apocalypse 3:15)

Worked passage ID: W.II.47; exact source and collation state are recorded in the passage inventory.

Utinam frigidus esses aut calidus!

Analysis. *Utinam* marks a wish. Imperfect subjunctive *esses* shows that the desired present state is contrary to fact.

Translation. “Would that you were cold or hot!”

Worked example: fear of a completed possibility (Galatians 4:11)

Worked passage ID: W.II.48; exact source and collation state are recorded in the passage inventory.

Timeo vos, ne forte sine causa laboraverim in vobis.

Analysis. *Ne* introduces what Paul fears may be true. Perfect subjunctive *laboraverim* is prior to present *timeo*; *forte* softens the feared possibility.

Translation. “I fear for you, lest perhaps I have labored among you in vain.”

1.3 Writing laboratory

Write the active and passive imperative grid, then add *dic, duc, fac, fer*. Copy *Accipite et manducate* and *Fiat voluntas tua*; label person and command type.

Give Latin for “Let us pray,” “Let him receive,” “Do not fear” (two patterns), “May they rest in peace,” “Would that he were here,” and “I fear that he will not come.” For the last item write both *ut* and *ne non* versions.

Part II

Practice

CHAPTER 1

Transfer, retrieval, and application

1.1 Direct volition — transfer practice

Connection. A speaker/addressee/person map selects imperative, jussive, or hortatory form before polarity is added.

Transfer task. Make rows for second-person command, first-person plural exhortation, and third-person jussive. Add positive and ordinary negative columns and fill them from the lesson.

Retrieval check. State which persons an ordinary imperative addresses and which mood supplies first- and third-person volition.

1.2 Reading the forms in context — transfer practice

Connection. Wishes require both time and fulfillment status, while fear clauses require the feared proposition to be stated before translating the marker.

Transfer task. For each lesson wish, label present/past/future orientation and fulfilled, possible, or unfulfilled status. For each fear clause, write the feared event in neutral English before deciding how *ne*, *ut*, or *ne non* maps it.

Retrieval check. Recite the ordinary fear-clause marker logic.

1.3 Writing laboratory — transfer practice

Connection. A controlled set tests whether person, polarity, wish reality, and feared event are chosen independently.

Transfer task. Complete the lesson's command, prohibition, wish, and fear prompts. Above each verb write speaker, addressee, person, mood, polarity, and time/reality where relevant.

Retrieval check. Explain why the same English “may” can represent more than one Latin use.

Part III

Worksheets

CHAPTER 1

Commands, wishes, and fear: parallel forms

Worksheet II.41 — Volition A

Worksheet ID: II.41

Focus: imperatives, jussives, prohibitions, wishes, fear**Use:** State person and why an independent subjunctive has its tense.

1. Give singular and plural imperatives of *amo*, *rego*, *audio*.

-
2. Give Latin: “Let us pray; let him come; let them receive.”

-
3. Prohibit “fear” in two regular ways.

-
4. Translate the reality: *utinam adsit* / *adesset* / *adfuisset*.

-
5. **Text:** *Accipite et manducate ex hoc omnes: hoc est enim Corpus meum.*

Passage ID: II.41.1; exact source and collation state are recorded in the passage inventory.

Parse commands and translate.

-
6. Write: “I fear that he may come; I fear that he may not come.”
-

Worksheet II.44 — Volition D**Worksheet ID:** II.44**Focus:** imperatives, jussives, prohibitions, wishes, fear**Use:** State person and why an independent subjunctive has its tense.

1. Give active imperatives of *cipio* and *fero*, singular/plural.

2. Distinguish *oramus* and *oremus*.

3. Give both singular and plural *noli* prohibitions for *recipere*.

4. Complete fear of failure: *Timuit* _____ *illi venirent*.

5. **Text:** *Fiat voluntas tua, sicut in cælo et in terra.*

*Passage ID: II.44.1; exact source and collation state are recorded in the passage inventory.*Parse *fiat*; translate.

6. Compose a two-sentence prayer using imperative, prohibition, and fulfilled wish.

Part IV

Assessment

CHAPTER 1

Mastery assessment and record

Advance when: Form fifteen commands or prohibitions with no more than one error, identify the time and reality of all six wish samples, and translate four fear clauses without reversing the feared event.

Complete the assessment before opening the answer part. Record evidence, not confidence or elapsed time.

Evidence	First attempt	Delayed check
Date and conditions		
Worksheet ID and score		
Mastery task and result		
One recurring error family		
Correction stated as a rule		
Unseen or remediation item used		

If the criterion is met: continue to EL-II.12, Gerund, Gerundive, Supine, and Passive Periphrastic.

If it is not met: Worksheets II.42 and II.43 remain optional remediation or delayed-recall variants.

Advance / remediate decision: _____ **Next review date:** _____

Reason in one complete sentence: _____

Part V

Answer Key

Open this part only after completing the assessment record. Use the comparison and alternative-answer protocol in EL-GUIDE.

CHAPTER 1

Practice models and rubrics

Direct volition — model and rubric

Model / acceptable evidence. Imperatives ordinarily address second person; first-person plural and third-person volition use the subjunctive in hortatory or jussive use. Negative forms must follow the distinct prohibition patterns printed in the lesson rather than simply adding *non*.

Reading the forms in context — model and rubric

Model / acceptable evidence. The wish label must follow its tense and context. After a verb of fearing, *ne* introduces what is feared may happen; *ut* introduces what is feared may fail to happen; *ne non* can make the negative proposition explicit. The final English must not reverse it.

Writing laboratory — model and rubric

Model / acceptable evidence. Each form must match its intended person and construction; both fear versions must preserve the same feared proposition. English “may” can render a wish, jussive, possibility, or dependent subjunctive, so the Latin governor and clause relation decide the use.

CHAPTER 2

Commands, wishes, and fear: parallel forms**Solution II.41 — Volition A****Worksheet ID:** II.41**Focus:** imperatives, jussives, prohibitions, wishes, fear**Use:** State person and why an independent subjunctive has its tense.

1. Give singular and plural imperatives of *amo*, *rego*, *audio*.

Answer / model: *ama/amate, rege/regite, audi/audite*.

2. Give Latin: “Let us pray; let him come; let them receive.”

Answer / model: *Oremus; veniat; accipiant*. Present subjunctives are hortatory/jussive.

3. Prohibit “fear” in two regular ways.

Answer / model: *Noli timere* (singular) or *nolite timere* (plural); sharp singular *ne timueris*.

4. Translate the reality: *utinam adsit* / *adesset* / *adfuisset*.

Answer / model: “May he be present / would that he were present (but is not) / would that he had been present (but was not).”

5. **Text:** *Accipite et manducate ex hoc omnes; hoc est enim Corpus meum*.

Passage ID: II.41.1; exact source and collation state are recorded in the passage inventory.

Parse commands and translate.

Answer / notes: *Accipite, manducate*: second plural present active imperatives. “All of you, take and eat of this, for this is my Body.”

6. Write: “I fear that he may come; I fear that he may not come.”

Answer / model: *Timeo ne veniat; timeo ut veniat* or *timeo ne non veniat*. Fear reverses the expected force of *ne*.

Solution II.44 — Volition D**Worksheet ID:** II.44**Focus:** imperatives, jussives, prohibitions, wishes, fear**Use:** State person and why an independent subjunctive has its tense.

1. Give active imperatives of *capio* and *fero*, singular/plural.

Answer / model: *cape/capite; fer/ferte.*

2. Distinguish *oramus* and *oremus*.

Answer / model: *Oramus*: present indicative, “we pray.” *Oremus*: present subjunctive hortatory, “let us pray.”

3. Give both singular and plural *noli* prohibitions for *recipere*.

Answer / model: *Noli recipere; nolite recipere.*

4. Complete fear of failure: *Timuit* _____ *illi venirent*.

Answer / model: *ut*, “He feared that they might not come”; historic sequence gives *venirent*.

5. **Text:** *Fiat voluntas tua, sicut in cælo et in terra.*

Passage ID: II.44.1; exact source and collation state are recorded in the passage inventory.

Parse *fiat*; translate.

Answer / notes: Third singular present subjunctive of *fiō*, independent jussive/optative with subject *voluntas tua*. “May your will be done, as in heaven and on earth.”

6. Compose a two-sentence prayer using imperative, prohibition, and fulfilled wish.

Answer / model: Model: *Domine, audi nos et ne nos derelinquas. Sit nomen tuum benedictum.*

Part VI

Scope and Sources

CHAPTER 1

Scope and Qualifications

1.1 Packet boundary

This is module EL-II.11, *Commands, Prohibitions, Wishes, and Fearing*, in Triptych's print-first Ecclesiastical Latin curriculum. It imports one authoritative lesson, transfer practice for its internal submodules, two selected worksheets, one local mastery assessment, and matching solutions. This packet teaches the main volitional and fear patterns in the course; tone and pastoral force are not inferred from morphology alone.

The unprinted worksheet variants remain course-owned extension material; their omission is intentional and is not a claim that the module exhausts available practice. EL-GUIDE owns the course-wide study method, pacing, lookup discipline, answer protocol, source classes, and advancement rules; this packet assumes that orientation and terminology taught in prerequisite modules.

1.2 Controlling records and local state

Course-wide research records own the edition, passage, answer, curriculum, and source decisions; the leaf's module map records this packet's selection and transfer practice. EL-GUIDE owns the corpus, normalization, translation, non-authority, review, and answer conventions that apply here. Claim-local qualifications remain beside the affected material; check received wording against the course-wide passage inventory.

Any installed snapshot is a working study held from release until its exact bytes and outstanding distribution gates receive separate authorization.

CHAPTER 2

References

The following works are the course's controlling corpus and reference aids. Project-composed explanation, translation, analysis, exercises, and models are distinguished from received wording under the convention stated in the Scope and Qualifications appendix. Short source passages are identified so that the learner can verify their wider context. The adjacent edition manifest and passage inventory record exact source roles, checks, access states, and known rights limits.

2.1 Primary corpus

- Catholic Church, *Missale Romanum ex decreto SS. Concilii Tridentini restitutum, Summorum Pontificum cura recognitum*, editio typica (Rome, 1962). A searchable presentation of the edition is hosted by the Holy See's Biblia Clerus project: <https://www.clerus.org/bibliaclerusonline/EN/gmb.htm>.
- A page-image scan of the 1962 typical edition is available through the Church Music Association of America: <https://media.churchmusicassociation.org/pdf/missale62.pdf>. Page images, rather than unsourced transcriptions, should decide doubtful punctuation or spelling.

- The Clementine Vulgate is the principal biblical comparison corpus. The public-domain 1914 edition edited by Michael Hetzenauer and its provenance are described at <https://www.sacredbible.org/vulgate1914/>.

2.2 Grammar and lexicography

- J. H. Allen and J. B. Greenough, *New Latin Grammar for Schools and Colleges* (1903), a donor-declared public-domain reference whose digital locator was not independently consulted during integration: <https://archive.org/details/allengreenoughsn01alle>.
- Charles E. Bennett, *New Latin Grammar*, 1918 revision, Project Gutenberg eBook 15665; public-domain text in the United States: <https://www.gutenberg.org/ebooks/15665>.
- Charlton T. Lewis and Charles Short, *A Latin Dictionary* (1879), searchable transcription: <https://logeion.uchicago.edu/lexidium>.
- Charles du Fresne, sieur du Cange, *Glossarium mediae et infimae latinitatis*, a donor-declared later-vocabulary aid whose digital locator was not independently consulted during integration: <http://ducange.enc.sorbonne.fr/>.

The underlying 1903, 1918, 1879, and 1883–1887 printed works are public domain in the United States. Digital transcriptions and interfaces retain their own terms and are cited as access tools, not relicensed or reproduced wholesale. The 1962 Missal, Scripture, official text, and other received wording retain their own status; see the scope appendix, research records, and final-page rights notice.

Classical reference grammars describe the inherited system but do not by themselves explain every biblical or ecclesiastical development. The advanced volume therefore distinguishes classical baseline, Vulgate usage, later Christian usage, and stable liturgical formula instead of labeling every difference an “exception.”

2.3 Citation convention

Missal passages are cited by liturgical location and text genre rather than by a page number that varies among printings. Biblical texts are cited by book, chapter, and verse. Historical authors are cited by work and section wherever possible. A learner preparing a formal commentary should verify each passage against the edition actually being used and record any variant. These references are not a claim that every historical-linguistic question can be settled by the listed school grammars and dictionary interfaces.
