From Bullarium Romanum, volume-04, 1859-turin-bullarium-volume-04-latin. Source-derived reading-order LF lines 54990-55045. Exact scan leaf bounds 467-467; automated printed-page labels remain unverified. Uncorrected, uncollated source OCR. The selected witness retains its source headings, identified historical notes, dating/signatures and literal abbreviations without expansion. Attribution is the printing's; source dates remain literal and no normalized act date is supplied. XIV54829, synopsis54831–54832, source summary54834–54837 and Benedictus protocol54839–54840 identify this independently bounded surviving witness. Opening54844–54846 is expressly replaced by cross-reference to an earlier constitution. Retain operative body, dating54868–54871 and own source note54873–54875; exclude subsequent page headers and nextXV54890. Reading order follows native word coordinates; the printing's marginal summaries are kept as separate blocks beside the sections they annotate; held pages, if any, keep raw OCR order.
