

Ecclesiastical Latin

EL-III.11: Requiem and Holy Week

Maintain intention, speaker, agreement, poetic syntax, and acclamatory force across selected Requiem and Triduum texts

A self-contained learning packet with a local reference card, enriched submodules, selected handwritten practice, a mastery record, and matching answers. This working study is not an official liturgical book or approved curriculum.

Corpus	1962 <i>Missale Romanum</i> ; Vulgate and ecclesiastical prose as supporting readers
Method	Print, annotate, parse, copy, transform, translate, and compose by hand
Pacing	Advance by demonstrated mastery; module packets use two focused sessions as a planning envelope
Document	Learning module; learner and terminal-key edition
Triptych: AI Driven Studies in Catholic Faith, Worship, and Law

Part I

Module Plan and Reference

CHAPTER 1

Plan, prerequisites, and advancement decision

Module ID	EL-III.11
Course stage	Stage III — Independent Missal Reading
Prerequisites	EL-III.10 and reliable genre, speaker, and placeholder ledgers
Observable outcome	Maintain intention, speaker, agreement, poetic syntax, and acclamatory force across selected Requiem and Triduum texts
Printed practice	Worksheets III.41 (Requiem agreement, Variant A) and III.44 (Good Friday and Paschal proclamation, Variant D), with terminal keys
Extension bank	Worksheets III.42 and III.43 remain optional funeral-Collect and Sequence/Holy-Thursday practice
Next dependency	EL-III.12, Full-Mass Capstone

1.1 Two focused sessions

Session 1 — guided acquisition. Study Requiem intention and agreement, complete Worksheet III.41, and audit singular/plural reference.

Session 2 — transfer and gate. Map Good Friday voices and the Paschal proclamation in Worksheet III.44, keeping acclamation, command, and jussive distinct.

The two-session plan is a workload envelope, not permission to advance by elapsed time. Stop, correct in a different color, and use an omitted variant when the mastery evidence below is absent.

Advance when: Accurately adapt a Requiem intention and map selected Good Friday and Paschal texts, with every recipient, speaker, command, jussive, relative, and poetic displacement justified from the Latin.

Scope of the two-session gate. Passing this packet demonstrates selected Requiem and Good Friday/Paschal transfer. It does not demonstrate exhaustive control of Holy Thursday or the complete Triduum; use Worksheet III.43 before making that wider claim.

CHAPTER 2

Module reference card

2.1 Terms, forms, and decisions to retrieve

- singular and plural intention, recipient, name, and gender agreement;
- poetic future, witness absolute, and sequence compression;
- obligation, impersonal construction, acclamation, command, and jussive; and
- speaker/addressee boundaries across distinct liturgical corpora.

2.2 High-risk contrast

Requiem, Sequence, Holy-Thursday, Good-Friday, and Paschal texts are distinct corpora and voices. Shared solemnity does not license one grammatical or speaker template for all of them.

2.3 Working protocol

Before looking anything up, mark the finite verb or verbal center, propose dictionary forms, and record at least two formally possible readings where an ending is syncretic. Use the identified 1962 Missal and the course source record for received wording. A familiar English rendering does not replace a parse.

Part II

Core Lesson

CHAPTER 3

Requiem and Holy Week

On completing this unit, you can:

- track singular, plural, and gender changes in Masses for the dead;
- read the compressed eschatological diction of the Requiem chants;
- recognize Holy Week's changes of register and speaker;
- give safety priority to the actual 1962 text rather than a remembered text from another edition.

These corpora punish assumption. Requiem formularies vary with one deceased or many and with grammatical gender. Holy Week contains blessings, narrative, solemn prayer, acclamation, reproach, and the Paschal proclamation. Always read the heading and the printed 1962 formula; texts remembered from earlier or later editions may differ.

A **Requiem Mass** is a Mass formulary for the dead; the label covers several 1962 formularies whose wording changes with occasion and intention. An **acclamation** is a short public utterance of praise, assent, or recognition; a **reproach** is direct address framed as an accusation or grieved question. A **register change** occurs when the text's discourse job and characteristic language change—for example, from narrative to command or lament—even inside the same day's rites. Recall that **deixis** locates persons, time, or place relative to the utterance; in a Requiem, resolving *ei/eis*, *hodie*, and similar forms therefore requires the exact formulary and intention.

3.1 Requiem deixis and agreement

Requiem æternam dona eis, Domine: et lux perpetua luceat eis. Te decet hymnus, Deus, in Sion, et tibi reddetur votum in Ierusalem.

Source: *Missale Romanum* (1962), *Missæ Defunctorum*, Introitus (4 Esd. 2:34–35; Ps. 64:2).

Imperative *dona* takes object *requiem æternam* and dative *eis*; jussive *luceat* takes subject *lux perpetua* and the same dative. In *te decet hymnus*, accusative *te* is the person whom the hymn befits and *hymnus* is subject. Passive future *reddetur* takes *votum* as subject and *tibi* as recipient.

For one deceased a collect may say:

Deus, cui proprium est misereri semper et parcere: te supplices exoramus pro anima famuli tui N., quam hodie de hoc sæculo migrare iussisti.

Source: *Missale Romanum* (1962), *Missæ Defunctorum*, in die obitus seu depositionis, Collecta.

cui is dative of possession with *proprium est*; the subject is the paired infinitive phrase *misereri ... et parcere*. Fronted *te* is object of *exoramus*; *supplices* describes the implicit petitioners. Relative *quam* refers to *animam* and is the accusative subject of *migrare* after *iussisti*. Substituting a woman changes *famuli* to *famulæ*; a plural formulary changes much more than that.

3.2 The sequence as compressed judgment

Dies iræ, dies illa, solvet sæclum in favilla: teste David cum Sibylla.

Source: *Missale Romanum* (1962), Missæ Defunctorum, Sequentia *Dies iræ*.

Although *dies* is often masculine, it can be feminine when it denotes an appointed or fixed day; *illa* therefore agrees regularly with *dies* here. Future *solvet* takes *sæclum* as object; *in favilla* expresses result. Ablative absolute *teste David* means David bearing witness; *cum Sibylla* adds the second witness. Poetry may preserve constructions that prose drills would not choose.

3.3 Holy Thursday and obligation

Nos autem gloriari oportet in cruce Domini nostri Iesu Christi: in quo est salus, vita et resurrectio nostra: per quem salvati et liberati sumus.

Source: *Missale Romanum* (1962), Feria V in Cena Domini, Introitus (Gal. 6:14).

Impersonal *oportet* governs infinitive *gloriari*; *nos* is the infinitive's accusative subject. Relative *quo* refers to *Domino nostro Iesu Christo* as the person in whom salvation is found, while *quem* after *per* names the agent through whom the plural subject has been saved and freed. The preverbal singular *est* with *salus, vita et resurrectio nostra* may show proximity agreement with the first noun or treat the series as a unit; morphology alone does not decide.

3.4 Reproach and acclamation

Popule meus, quid feci tibi? aut in quo contristavi te? responde mihi.

Source: *Missale Romanum* (1962), Feria VI in Parasceve, Improperia.

Popule meus is vocative. Interrogative *quid* is object of *feci*, dative *tibi* marks the affected person, and *in quo* asks in what respect. In *contristavi te*, *te* is the direct object. The command *responde* takes dative *mihi*.

The veneration acclamation says:

Ecce lignum Crucis, in quo salus mundi pependit. Venite, adoremus.

Source: *Missale Romanum* (1962), Feria VI in Parasceve, Adoratio Crucis.

ecce presents *lignum*; because this neuter form is identical in the nominative and accusative, its case cannot be proved from the ending alone (*ecce* admits both constructions). *in quo* is an ablative relative, *salus* the subject, and *mundi* a genitive. Plural imperative *venite* is followed by hortatory *adoremus*.

3.5 The Paschal proclamation

Exsultet iam angelica turba cælorum: exsultent divina mysteria: et pro tanti Regis victoria tuba insonet salutaris.

Source: Missale Romanum (1962), Sabbato Sancto, Præconium paschale.

Three jussive subjunctives have three subjects: *turba*, *mysteria*, and *tuba*. The apparent singular/plural surprise in *angelica turba cælorum* resolves when *turba* is recognized as a collective singular. *pro ... victoria* gives the occasion, with *tanti Regis* dependent on *victoria*; *salutaris* agrees with *tuba*.

Advance when: you can adapt a Requiem prayer accurately for one man, one woman, and several deceased persons; parse an unseen stanza of *Dies iræ*; and read one assigned Holy Week office section while correctly marking every change of speaker and register, all without a facing translation and at 90% sampled form accuracy.

Part III

Enrichment by Submodule

CHAPTER 4

Connections, transfer, and retrieval

4.1 Requiem deixis and agreement — enrichment and transfer

Connection. Changing the intended deceased person changes a controlled chain of pronouns, nouns, adjectives, and sometimes titles.

Transfer task. Transform one plural-intention line already printed in the lesson to one man and one woman, recording every changed and unchanged coordinate.

Retrieval check. State why mechanical replacement of one pronoun is insufficient.

4.2 The sequence as compressed judgment — enrichment and transfer

Connection. Short poetic lines still contain finite spines, witnesses, objects, and displaced modifiers.

Transfer task. Take the lesson's printed Sequence line, restore a prose scaffold, and label future form, subject, object, prepositional phrase, and witness expression.

Retrieval check. Name one poetic effect retained only in the printed order.

4.3 Holy Thursday and obligation — enrichment and transfer

Connection. An impersonal obligation construction must be separated from its accusative subject and infinitive.

Transfer task. Diagram the Holy-Thursday example already printed in the lesson, naming impersonal governor, infinitive, accusative subject, and dependent phrase.

Retrieval check. Explain why the accusative is not an ordinary direct object.

4.4 Reproach and acclamation — enrichment and transfer

Connection. Rapid questions and responses shift divine speaker, addressed people, presenter, and assembly.

Transfer task. Make a speaker/addressee table for the lesson's Reproach and Cross-acclamation excerpts, then classify every imperative, question, and hortatory form.

Retrieval check. Which printed forms prove the shift of addressee?

4.5 The Paschal proclamation — enrichment and transfer

Connection. Coordinated jussives may have different subjects while participating in one rising proclamation.

Transfer task. On the lesson excerpt, pair each jussive with its subject and modifiers, then describe the coordination without merging those subjects.

Retrieval check. Give the person, number, tense, voice, and mood of each verbal center.

Part IV

Selected Practice

CHAPTER 5

Unit III.11: Requiem and Holy Week

Worksheet III.41 — Variant A

Worksheet ID: III.41

Focus: Requiem agreement

Use: Track every recipient.

1. **Text:** *Requiem æternam dona eis, Domine: et lux perpetua luceat eis. Te decet hymnus, Deus, in Sion, et tibi reddetur votum in Ierusalem.*

Passage ID: III.41.1; exact source and collation state are recorded in the passage inventory.

Parse commands, wishes, subjects, and datives.

-
2. Adapt only the opening petition to one deceased man.

-
3. Why is *hymnus* nominative?

-
4. Change *votum* to plural and adjust.

-
5. Answer in Latin: *Quibus requies et lux dari petuntur?*

-
6. Create the singular/plural ledger for *ei/eis*, *anima/animæ*, *famuli/famulorum*.
-

Worksheet III.44 — Variant D**Worksheet ID:** III.44**Focus:** Good Friday and Paschal proclamation**Use:** Mark every change of voice.

1. **Text:** *Popule meus, quid feci tibi? aut in quo contristavi te? responde mihi.*

Passage ID: III.44.1; exact source and collation state are recorded in the passage inventory.

Identify speaker/addressee slots and all cases.

-
2. **Text:** *Ecce lignum Crucis, in quo salus mundi pependit. Venite, adoremus.*

Passage ID: III.44.2; exact source and collation state are recorded in the passage inventory.

Parse presentation, relative, command, and exhortation.

-
3. Answer in Latin: *In quo salus mundi pependit?*

-
4. **Text:** *Exsultet iam angelica turba cælorum: exsultent divina mysteria: et pro tanti Regis victoria tuba insonet salutaris.*

Passage ID: III.44.3; exact source and collation state are recorded in the passage inventory.

Identify three jussives and three subjects.

-
5. Why does *angelica* remain singular beside plural *cælorum*?

-
6. Create a speaker ledger for the three excerpts.
-

Part V**Mastery Decision****CHAPTER 6**

Part VI

Answer Key

CHAPTER 7

How to Use the Keys

These keys diagnose grammatical decisions. Compare them only after completing the corresponding worksheet or assessment in ink. For a closed item, locate the form, function, government, or clause relation that decides the answer; a matching English paraphrase alone is not enough. For an open task, use the stated model and rubric to test morphology, syntax, idiom, and source control.

Some translations legitimately admit more than one English wording. An alternative is acceptable when it preserves the Latin agency, negation, time, dependency, and material ambiguity. Record a defensible alternative in the error ledger rather than changing it merely to imitate the model's style.

CHAPTER 8

Enrichment models and rubrics

Requiem deixis and agreement — model and rubric

Connection. Changing the intended deceased person changes a controlled chain of pronouns, nouns, adjectives, and sometimes titles.

Model / acceptable evidence. The model audits recipient, possessive or genitive, soul or servant wording, adjective gender, and finite number. Unchanged forms are explicitly justified rather than overlooked.

The sequence as compressed judgment — model and rubric

Connection. Short poetic lines still contain finite spines, witnesses, objects, and displaced modifiers.

Model / acceptable evidence. The scaffold accounts for every form and the witness expression's case; the return note cites repetition, rhyme, fronting, or compression without adding doctrine to the parse.

Holy Thursday and obligation — model and rubric

Connection. An impersonal obligation construction must be separated from its accusative subject and infinitive.

Model / acceptable evidence. The model treats the accusative as the infinitive's subject within the construction and attaches the infinitive to the impersonal governor. A direct-object label cannot explain the whole clause.

Reproach and acclamation — model and rubric

Connection. Rapid questions and responses shift divine speaker, addressed people, presenter, and assembly.

Model / acceptable evidence. The model cites vocatives, pronoun persons, verb persons, and command forms. Ceremonial roles may remain outside scope, but grammatical voices must be explicit.

The Paschal proclamation — model and rubric

Connection. Coordinated jussives may have different subjects while participating in one rising proclamation.

Model / acceptable evidence. Every jussive is parsed separately and paired by agreement with its subject. The synthesis may note parallel escalation, but no singular subject may be carried across a plural form.

CHAPTER 9

Unit III.11: Requiem and Holy Week

Solution III.41 — Variant A

Worksheet ID: III.41

Focus: Requiem agreement

Use: Track every recipient.

1. **Text:** *Requiem æternam dona eis, Domine: et lux perpetua luceat eis. Te decet hymnus, Deus, in Sion, et tibi reddetur votum in Ierusalem.*

Passage ID: III.41.1; exact source and collation state are recorded in the passage inventory.

Parse commands, wishes, subjects, and datives.

Answer / notes: Imperative *dona*, object *requiem æternam*, dative *eis*. Jussive *luceat*, subject *lux perpetua*, dative *eis*. *te* accusative person with impersonal-like *decet*, subject *hymnus*; vocative *Deus*. Future passive *reddetur*, subject *votum*, recipient *tibi*; locations *in Sion/in Ierusalem*.

2. Adapt only the opening petition to one deceased man.

Answer / model: *Requiem æternam dona ei, Domine: et lux perpetua luceat ei.*

3. Why is *hymnus* nominative?

Answer / model: It is the thing that befits *te*; *te* is accusative of person with *decet*, not the subject.

4. Change *votum* to plural and adjust.

Answer / model: *et tibi reddentur vota in Ierusalem.*

5. Answer in Latin: *Quibus requies et lux dari petuntur?*

Answer / model: *Fidelibus defunctis requies æterna et lux perpetua dari petuntur.*

6. Create the singular/plural ledger for *ei/eis*, *anima/animæ*, *famuli/famulorum*.

Answer / model: Singular dative *ei*, plural dative *eis*; nominative/ablative singular *anima*, nominative plural or genitive/dative singular *animæ*; genitive singular *famuli*, genitive plural *famulorum*. Context must decide ambiguous forms.

Solution III.44 — Variant D

Worksheet ID: III.44

Focus: Good Friday and Paschal proclamation

Use: Mark every change of voice.

1. **Text:** *Popule meus, quid feci tibi? aut in quo contristavi te? responde mihi.*

Passage ID: III.44.1; exact source and collation state are recorded in the passage inventory.

Identify speaker/addressee slots and all cases.

Answer / notes: Vocative *Popule meus*; interrogative object *quid*; dative affected person *tibi*; *in quo* ablative respect; *te* object of *contristavi*; imperative *responde* with dative *mihi*. Divine speaker addresses the people in the Improperia.

2. **Text:** *Ecce lignum Crucis, in quo salus mundi pependit. Venite, adoremus.*

Passage ID: III.44.2; exact source and collation state are recorded in the passage inventory.

Parse presentation, relative, command, and exhortation.

Answer / notes: *ecce* presents neuter *lignum*; nominative and accusative are formally identical here, and *ecce* admits either construction, so the ending alone does not decide the case. Genitive *Crucis*; ablative relative *in quo*; subject *salus*, genitive *mundi*, perfect *pependit*. Plural imperative *venite*; hortatory subjunctive *adoremus*.

3. Answer in Latin: *In quo salus mundi pependit?*

Answer / model: *Salus mundi in ligno Crucis pependit.*

4. **Text:** *Exsultet iam angelica turba cælorum: exsultent divina mysteria: et pro tanti Regis victoria tuba insonet salutaris.*

Passage ID: III.44.3; exact source and collation state are recorded in the passage inventory.

Identify three jussives and three subjects.

Answer / notes: Jussives *exsultet*, *exsultent*, *insonet*; subjects respectively *turba*, *mysteria*, *tuba*. *angelica* agrees with collective singular *turba*, genitive *cælorum*; *salutaris* agrees with *tuba*; *pro victoria* occasion, genitive *tanti Regis*.

5. Why does *angelica* remain singular beside plural *cælorum*?

Answer / model: It agrees with singular head *turba*; *cælorum* is a dependent genitive, not its agreement head.

6. Create a speaker ledger for the three excerpts.

Answer / model: Improperia: divine speaker -> people. Cross acclamation: deacon/priest and faithful response. Paschal proclamation: proclaiming minister calls heavenly beings, mysteries, and trumpet to rejoice/resound. Exact ceremonial roles may be checked in rubrics, but grammatical voices are as mapped.

Part VII

Scope and Sources

CHAPTER 10

Scope and Qualifications

10.1 Packet boundary

This is module EL-III.11, *Requiem and Holy Week*, in Triptych's print-first Ecclesiastical Latin curriculum. It imports one authoritative teaching unit, its local reference decisions, enrichment for each internal submodule, the selected worksheets named in the module plan, and the matching solutions. The core deliberately selects Requiem and Good Friday/Paschal work. Holy Thursday and the funeral-Collect variant remain explicit extensions, so the packet makes no exhaustive Triduum claim.

The unprinted worksheet variants remain course-owned extension material; their omission is intentional and is not a claim that the module exhausts available practice. Two focused sessions describe the packet's planned core, while the mastery gate and delayed recall determine advancement.

10.2 Corpus, text, and limits

The controlling reader is the 1962 typical edition of the *Missale Romanum*; the identified Clementine Vulgate and other ecclesiastical prose are supporting corpora. Running Latin normally uses consonantal *i*, the ligature *æ*, and no macrons. Received excerpts may normalize typography but are not diplomatic transcriptions unless labeled. Uncited short drills, transformations, and instructional models are project-composed; English translations and glosses are project translations unless identified otherwise.

This packet teaches language competence. It is not an official liturgical book, approved seminary curriculum, certification, pronunciation or ceremonial course, critical edition, or authority for a liturgical, theological, textual, or canonical judgment. Check received wording against the editions identified in the course-wide passage inventory.

10.3 Review, rights, and release state

Course-wide research records own the edition, passage, answer, curriculum, and source decisions; the leaf's module map records this packet's selection and enrichment. No independent Latinist, liturgist, pedagogue, theologian, or ecclesiastical reviewer is claimed. Page-image collation and the donor and liturgical-text distribution bases remain unresolved pre-installation gates. The packet therefore remains a working build on hold, not an installed or released publication.

CHAPTER 11

References

The following works are the course’s controlling corpus and reference aids. Project-composed explanation, translation, analysis, exercises, and models are distinguished from received wording under the convention stated in the Scope and Qualifications appendix. Short source passages are identified so that the learner can verify their wider context. The adjacent edition manifest and passage inventory record exact source roles, checks, access states, and known rights limits.

11.1 Primary corpus

- Catholic Church, *Missale Romanum ex decreto SS. Concilii Tridentini restitutum, Summorum Pontificum cura recognitum*, editio typica (Rome, 1962). A searchable presentation of the edition is hosted by the Holy See’s Biblia Clerus project: <https://www.clerus.org/bibliacclerusonline/EN/gmb.htm>.
- A page-image scan of the 1962 typical edition is available through the Church Music Association of America: <https://media.churchmusicassociation.org/pdf/missale62.pdf>. Page images, rather than unsourced transcriptions, should decide doubtful punctuation or spelling.
- The Clementine Vulgate is the principal biblical comparison corpus. The public-domain 1914 edition edited by Michael Hetzenauer and its provenance are described at <https://www.sacredbible.org/vulgate1914/>.

11.2 Grammar and lexicography

- J. H. Allen and J. B. Greenough, *New Latin Grammar for Schools and Colleges* (1903), a donor-declared public-domain reference whose digital locator was not independently consulted during integration: <https://archive.org/details/allengreenoughsn01alle>.
- Charles E. Bennett, *New Latin Grammar*, 1918 revision, Project Gutenberg eBook 15665; public-domain text in the United States: <https://www.gutenberg.org/ebooks/15665>.
- Charlton T. Lewis and Charles Short, *A Latin Dictionary* (1879), searchable transcription: <https://logeion.uchicago.edu/lexidium>.
- Charles du Fresne, sieur du Cange, *Glossarium mediae et infimae latinitatis*, a donor-declared later-vocabulary aid whose digital locator was not independently consulted during integration: <http://ducange.enc.sorbonne.fr/>.

The underlying 1903, 1918, 1879, and 1883–1887 printed works are public domain in the United States. Digital transcriptions and interfaces retain their own terms and are cited as access tools, not relicensed or reproduced wholesale. The 1962 Missal, Scripture, official text, and other received wording retain their own status; see the scope appendix, research records, and final-page rights notice.

Classical reference grammars describe the inherited system but do not by themselves explain every biblical or ecclesiastical development. The advanced volume therefore distinguishes classical baseline, Vulgate usage, later Christian usage, and stable liturgical formula instead of labeling every difference an “exception.”

11.3 Citation convention

Missal passages are cited by liturgical location and text genre rather than by a page number that varies among printings. Biblical texts are cited by book, chapter, and verse. Historical authors are cited by work and section wherever possible. A learner preparing a formal commentary should verify each passage against the edition actually being used and record any variant. These references are not a claim that every

historical-linguistic question can be settled by the listed school grammars and dictionary interfaces.
